Key Partnerships  Medical & Scientific * Functional medicine clinics. * Longevity physicians. * Pharmacists and compounding pharmacies. * Medical researchers/advisors. Technical * AI infrastructure providers. * EHR/telehealth integration partners. * Identity/license verification services for clinician authentication. Strategic * Longevity influencers/podcasters. * Clinical trial databases and scientific publishers. * Professional healthcare organizations.	Key Activities  Core Platform Operations * Curating and summarizing peptide research. * Maintaining searchable peptide database infrastructure. * Verifying providers/vendors/pharmacies. Product Development * Building recommendation/search algorithms. * AI-powered study summarization and tagging systems. * Developing clinician discussion/community tools. Compliance & Trust * Legal/regulatory review. * Maintaining medical disclaimers and evidence transparency. * Monitoring misinformation and unsafe claims. Key Resources  Intellectual Property * Structured peptide research database. * Verification framework and trust standards. * AI summarization and semantic tagging systems. Human Resources * Medical advisors/scientific reviewers. * Engineers and AI/data infrastructure developers. * Compliance/legal consultants. Brand Assets * Trust reputation. * SEO authority. * Professional network/community effects.	Value Propositions  For Consumers: * Centralized peptide education with evidence-backed summaries instead of fragmented Reddit/forum research. * Transparent vendor and provider verification to reduce gray-market risk. * Symptom- and goal-based discovery engine that translates complex science into actionable understanding. For Providers: * Patient acquisition platform for peptide and longevity clinics. * Access to clinician-only discussion forums and peer collaboration. * Educational/research tools to stay updated on emerging peptide therapies. For Vendors/Pharmacies: * Increased trust and visibility through rigorous verification standards. * Exposure to a targeted high-intent audience. * Reputation differentiation in a market filled with questionable operators.	Customer Relationships  Consumer Retention * Personalized dashboards and saved peptide research collections. * Weekly newsletters summarizing new studies and emerging peptides. * Symptom/goals tracking and recommendation personalization. Provider Relationships * Exclusive clinician forum access. * Verified provider badges and profile optimization. * Research briefings and clinical insights. Building Trust thru Transparency * Transparent evidence scoring system. * Independent verification process for vendors/pharmacies. * Clear distinction between: * anecdotal reports * clinical evidence * theoretical mechanisms Channels  * SEO-driven educational content targeting searches like: * "best peptides for recovery" * "BPC-157 studies" * "peptides for brain fog" * Social media content across TikTok, Instagram, YouTube, Reddit, clinician webinars, podcasts, and longevity communities * Short form YouTube/TikTok/Instagram videos * Long-form educational YouTube/TikTok/Instagram content simplifying peptide science. * Partnerships with clinics, telemedicine platforms, conferences, educational panels, wellness influencers, and healthcare providers * UGC collab w biohacker/wellness influencers Community Channels (Reddit, Discord, podcasts, panels) * Reddit engagement and sentiment aggregation. * Longevity/biohacking communities and podcasts. * Clinician webinars and educational panels.	Customer Segments  Primary Customers: * Health-conscious consumers / biohackers People interested in longevity, recovery, cognitive enhancement, fat loss, performance optimization, sleep, inflammation reduction, etc. * Patients actively exploring peptide therapy * People seeking guidance, providers, safety information, and sourcing transparency. * Clinicians & longevity practitioners (Functional medicine doctors, integrative physicians, hormone clinics, longevity clinics, nurse practitioners, telehealth providers.) Secondary Customers * Compounding pharmacies * Pharmacies seeking visibility and trust positioning in a rapidly growing peptide market. * Peptide vendors/manufacturers * Legitimate, compliance-focused companies wanting credibility and customer acquisition. * Researchers & medical professionals * People interested in clinical discussions, emerging studies, and therapeutic innovation.
Cost Structure  Technology Costs * AI infrastructure and LLM/API costs. * Database/search infrastructure. * Engineering/product development. Compliance & Legal * Healthcare legal counsel. * Regulatory review/compliance monitoring. * Insurance/risk management. Growth & Operations * Content production and SEO. * Provider/vendor onboarding and verification. * Community moderation and support staff.			Revenue Streams  B2B Revenue * Monthly subscriptions for provider listings. * Sponsored featured provider/vendor placements. * SaaS-style subscriptions for advanced analytics/research tools. Affiliate / Referral Revenue * Referral commissions from telemedicine clinics. * Referral partnerships with pharmacies and compliant peptide providers. * Educational course/certification partnerships. Consumer Revenue * Premium membership tier: * advanced research dashboards * personalized peptide tracking * expert webinars * AI peptide research assistant * Paid professional community access for clinicians.	

Make better strategic work. Playbooks that align teams and drive results.
